SUMMARY

HSU is a unit of UNTFHS established in 2004 to integrate the human security approach into the work of the UN system, to strengthen the organization's response to multiple and complex challenges, and to promote initiatives to translate the human security approach into concrete outcomes.

WAAS is a transnational, transdisciplinary, non-governmental organization established in 1960 to promote the knowledge and policies needed to address the pressing challenges confronting global humanity. It enjoys special consultative status with UN Economic and Social Council and consultative status with UNESCO.

CAMPAIGN ACTIONS

RAISING AWARENESS

Enhancing protection of our environment and global common good will be accelerated by mainstreaming the concept of human security.

PROVIDING SUPPORT

The Human Security For All initiative is designed to stimulate greater support for national and international action based on the necessity of obtaining human security.

ENHANCING COLLABORATION

The campaign seeks to promote the application of innovative technologies, organizational strategies, partnerships and multilateral cooperation to address human security threats and tap opportunities that enhance all dimensions of human security.

CAMPAIGN LAUNCH:
HUMAN SECURITY EMERGES AS A PRIMARY
DRIVER OF TECHNOLOGY INNOVATION AT THE
2023 CES

The campaign was kickstarted through a landmark partnership with the [Consumer Technology Association](#) (CTA) and launched at the 2023 [Consumer Electronics Show](#) (CES), the most important consumer technology exhibition in the world. Attracting over 120,000 business and technology experts from around the world, the event took place from January 6 to 9 in Las Vegas and featured the latest innovation and advancements across a wide range of sectors. For the first time in 50 years, CES was given a theme – Human Security For All and CTA called on its member companies to adopt this theme as a social mission to mainstream human security.
