Request for Re-Election as Associate Fellow of WAAS

Dear Friends at the World Academy of Art and Science,

I have very fond memories of working alongside many of you during the WAAS conference in Rome, establishing WUNICON, and collaborating on other high-impact projects over the years. Those experiences continue to hold a special place in my heart.

Regarding the renewal of my Associate Fellowship with the World Academy of Art and Science, I would like to express my interest in being considered for re-election. While I acknowledge that my participation in the Academy's activities has not been as active as in previous years due to the nature of my work, I remain deeply committed to the goals and mission of WAAS.

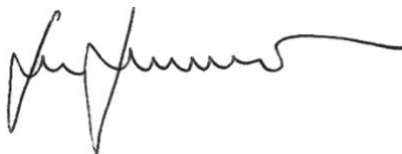

During my current term, I had the opportunity to assist with the Global Campaign on Human Security. My contributions focused on establishing a global presence for WAAS within this project, particularly through social media, ensuring that our initiatives reached a broader and more diverse audience.

I am also very pleased to see the growth and success of the Academy over the past years. Reflecting on all the work we did prior to this growth, I am happy with how everything turned out and proud to be part of such a dynamic organization that is making a significant impact on global discourse.

Looking ahead, I am eager to continue contributing to the Academy in any capacity that is needed. I am open to offering my expertise or advice in the area of social media, or any other areas where my skills might be of value. I also hope that I will have the opportunity to participate in some of the Academy's amazing activities in person as well.

Thank you for considering my re-election. I am enthusiastic about the possibility of continuing my journey with WAAS and contributing to its future endeavors.

Sincerely,
An Krumberger
